

MEDIPACK AG NEWSLETTER 1/2017

Visit our new website www.medipack.ch

Sehr geehrter Herr Newsletter

Do you have a product for which you need an efficient packaging solution? If so, come and visit us at our stand – we'd be delighted to advise you.

In addition to our proven machines and blister packs, we will also be presenting **our latest developments** at the fair. Without giving too much away at this point, we will show you a solution for the secure packaging of small batch sizes as well as a user-friendly packaging solution for the protection of sharp-edged implants. Have we sparked your interest? We'd be delighted to show you more at our stand.

And, of course, our famous **Medipack Toblerone** will also be making an appearance. Using our Medipacker TS sealing machine and ZSM cylinder punch machine, we seal and then cut the chocolate into individual portions.

Medtec Stuttgart
4. - 6. April 2017
Hall 3 / Stand 3B10

Additionally

40 years of MEDIPACK AG – Success story of a family company

For 40 years the company MEDIPACK AG has successfully maintained its position on the market and is now an internationally recognised system supplier for medicinal packaging

On our anniversary we are giving ourselves a present of a [new homepage](#).

What are the most important new features?

Our website has been given a new layout, is fully user-friendly and has been compiled in a responsive design. This means that you can also view our website without any problems on your Smartphone or tablet.

Our staff are important to us and we are proud of them. Every month we present a bit more information about one of our work colleagues under the heading **«News»**. Find out more about us and have a look behind the scenes.

Are you curious now? Visit our new homepage (www.medipack.ch).

With best wishes and we will see you soon at our stand in Stuttgart!

Reto Artusi
Managing Director
